

JEAN JEWELL DOMINIC

Junior Cyber Security Analyst

+918089670760 @ jeanjewelldominic@gmail.com Alappuzha, Kerala

SUMMARY

I am a motivated and results-driven Junior Cybersecurity Analyst with a passionate commitment to cybersecurity and practical experience in penetration testing, security operations, and threat analysis. A self-taught professional, I have cultivated expertise in network security, vulnerability assessment, and incident response, while actively enhancing my skills through platforms like Hack The Box.

EXPERIENCE

Website and Social Media Admin

Acroyogathai

2023 - Present Alappuzha

Aroyogathai is a yoga school offering acroyoga and teacher training in Barcelona and Kerala

- Managed website and Instagram content ensuring secure and up-to-date information.
- Monitored and responded to emails, following data privacy best practices.
- Gained experience in website administration and basic digital security practices.

Network and Systems Admin

myG

07/2024 - 02/2025 Alappuzha

Digital Electronics Appliances hub

- System Updates and patches
- Firewalls
- Administrative Active Directory
- Secured WiFi networks by implementing encryption and monitoring for threats

CyberSecurity Analyst(Internship)

BlueShell Technologies

03/2024 - 11/2024 Ernakulam

Technology company specializing in cybersecurity solutions.

- Performed managed vulnerability scanning.
- Monitored security incidents in real-time using Wireshark and Splunk.
- Experience with pen testing tools and frameworks such as Metasploit, Nessus, BurpSuite and Nmap.
- Kioptrix

Cyber Security Analyst(Internship)

Technovalley Software India PVT Ltd

02/2019 - 12/2019 Ernakulam

Software development company focusing on cyber security solutions.

- Conducting vulnerability assessments and exploiting weaknesses in web applications, networks, and systems.
- Networking: TCP/IP, DNS, HTTP/S, VPNs, firewalls, and intrusion detection systems.
- Tools & Technologies: Kali Linux, Metasploit, Burp Suite, Wireshark, Nmap, Snort, SIEM platforms.
- Cloud Computing.
- Python, Powershell, html, javascript, css.

SKILLS AND TOOLS

Pentesting, OWASP 10, Threat Hunting, Network Security, Firewalls, Malware Analysis, Log Analysis, Metasploit, BurpSuite, Nikto, Nessus, Nmap, Wireshark, OWASP ZAP, AMASS, Manual Exploitation Methods, Snort, CCNA, DNS, TCP/IP, Switches, VPN, Vlabs, Servers, Scripting, Python, HTML, JavaScript, CSS, SIEM, Security Operations, Active Directory, MySQL, VMware, Bug Hunting

PROJECTS

SIEM Virtual Lab

📅 06/2024 - 07/2024 📍 Virtual

Lab for security monitoring.

- Configured a lab for real-time monitoring and alerts utilizing OSSIM for security management and ElkStack for log analysis.

Medium Blog

📅 2023 - 01/1970 📍 Online

Blog showcasing skills and knowledge in cybersecurity.

- Created a blog to write up my skills and demonstrate my knowledge.

KEY ACHIEVEMENTS

Security Vulnerability Identification and Reporting

National Critical Information Infrastructure Protection
Centre (NCIIP)

Received recognition for identifying and reporting vulnerabilities, including Cross-Site Scripting (XSS) and Insecure Direct Object References (IDOR), contributing to the strengthening of cybersecurity protocols

EDUCATION

Ceh V12 , Certified Penetration Tester (CPT), CCNA
