Professional Summary

Security Analyst with 2 years of experience at Wipro, working with Blackstone. Expertise in incident response, email security, social media security, and endpoint protection. Strong knowledge of Splunk (Search Head, Lookups, Detection Algorithms), JIRA for detection fine-tuning, and ServiceNow ticketing. Certified in AWS Cloud Practitioner and CompTIA Security+.

Skills & Tools

- Security Operations: Incident Response, Threat Detection, Risk Assessment
- SIEM & EDR: Splunk, CrowdStrike, Cylance, Microsoft Defender
- Threat Intelligence & Email Security: TRAP TAP alerts, Domain Discovery, Social Media Security (ZeroFox)
- ITSM & Project Management: JIRA (Detection Onboarding & Fine-tuning), ServiceNow
- Cloud & Compliance: AWS Security, Compliance Frameworks

Work Experience

Security Analyst | Wipro (Client: Blackstone) | March 2023 - August 2024

- Managed incident response for email security, social media threats, and endpoint security.
- Analyzed and fine-tuned Splunk detections, improving accuracy and reducing false positives.
- Worked on JIRA onboarding projects, implementing new detections and optimizing security alerts.
- Investigated TAP TAP alerts, Microsoft Defender logs, and domain discovery reports.
- Processed ServiceNow tickets related to application downloads, embedded links, and email security.

Certifications

- AWS Certified Cloud Practitioner
- CompTIA Security+

Education

Bachelor of Technology | Dr. APJ Abdul Kalam Technical University

(SGPA: 8.51)
