### Profile

---

Motivated and skilled Ethical Hacker with over two years of experience in cybersecurity and penetration testing. Proficient in identifying and mitigating security vulnerabilities using a variety of tools and techniques. Successfully completed multiple bug bounty programs. Seeking a position to leverage my technical expertise and passion for cybersecurity to contribute to the security initiatives of a forward-thinking organization.

### Education

---

<b>Master's Program - Cyber Security Expert, Simplilearn</b> Relevant course work: Network Security, Advanced Penetration Testing, Cloud Security, Ethical Hacking.	2022 – PRESENT Bangalore, India
<b>Bachelor's degree - BSc Computer science, Acharya Nagarjuna University</b> I got 2.0 GPA in my graduation.	2018 – 2021 Guntur, Andhra Pradesh, India

### Certifications

---

<b>CYBER SECURITY EXPERT, SIMPLILEARN</b> I am <u>currently training</u> for Cyber Security Expert Master's certification.  In Progress: 1. Intro to Cyber Security 2. CompTIA Security+ (SY0-601) 3. CISSP 4. CCSP 5. CompTIA Network+ (N10-006) 6. CISM OSL	<b>Bug Bounty - Account Takeover(2023), Udemy</b>	<b>CERTIFIED ETHICAL HACKER v11(2022), EC-COUNCIL</b>
<b>CEH(2021), RVRSS CYBER EDGE</b>		

### Skills

---

#### Technical:

SIEM tools (Splunk, QRadar), Network Security, Vulnerability Assessment, Penetration Testing, Cloud Security, Linux.

#### Programming:

C++, Bash

#### Tools:

Nessus, Qualys, Burp Suite, Wireshark, Metasploit, Nmap.

## Experience

---

### **Cybersecurity Intern, Matex Consultancy**

03/2024 – 06/2024

Bengaluru, India

- Conducted penetration tests on web applications and internal networks, identifying and mitigating critical vulnerabilities.
- Utilized tools such as Wireshark, Metasploit, and Splunk to perform security assessments and monitor network traffic.
- Assisted in developing and implementing security policies and procedures to enhance organizational security posture.
- Collaborated with the IT team to conduct security awareness training for employees, improving overall cybersecurity hygiene.
- Prepared detailed reports on findings and provided actionable recommendations to senior management.

### **Bug Bounty Hunter, Freelance**

2022 – 2024

Remote, India

- Successfully identified and reported security vulnerabilities in various web applications, resulting in substantial rewards and recognition.
- Specializing in account takeover vulnerabilities, cross-site scripting (XSS), and SQL injection.
- Collaborated with security teams of different organizations to ensure vulnerabilities were effectively mitigated.

## Projects

---

### **Bug Bounty Platforms:**

- Conducted reconnaissance and vulnerability scanning, identifying critical security flaws.
- Discovered insecure endpoints, preventing unauthorized data exposure.
- Detected improper authentication mechanisms, enhancing user data protection.
- Identified improper authentication and authorization mechanisms, enhancing API security.
- Exploited misconfigured services to gain unauthorized access, recommending security improvements.
- Uncovered insecure data storage vulnerabilities, ensuring secure data handling.
- Reported vulnerabilities to affected organizations following ethical guidelines.

## Activities

---
