ABOUT ME

I am an information security professional with robust problem-solving skills and expertise in Risk management, TPRM, Incident management and Computer Networking. Skilled in using Microsoft Sentinel and Microsoft Defender to analyze security events and enhance threat defense. Eager to apply knowledge in a dynamic SOC environment, contribute to security operations, and continuously learn about evolving cyber threats.

SKILLS

ISO 27001, Risk Management, Incident management, Computer Networking, MS Excel, Data Analysis.
Language - Python
Microsoft sentinel, defender, email security tools, Generating reports, Data extraction

CERTIFICATION

ISO 27001:2013 Lead Implementer.
VMDR -Qualys Guard
Networking Basics - Cisco
Third Party Risk management - One Trust
Data Science Foundations- Great Learning
Intoduction to Data Analysis using Microdoft Excel- Coursera

Work Experiences

SOC Analyst

Alif IT Cloud Consulting

April 24 - Dec 24

- Monitored and analyzed security events using Microsoft Sentinel and Microsoft Defender.
- Investigated and responded to security incidents, including phishing attempts and email threats, using email security and phishing analysis tools..
- Extracted and analyzed security logs using KQL (Kusto Query Language).
- Created detailed reports on true positive security incidents to improve threat detection.
- Performed incident response by identifying, containing, and mitigating security threats
- Generated weekly security reports based on KQL queries to assess trends and improve defenses

Compliance Intern

Cyber SRC Consultancy

Nov 2023 - Feb 2024

- Developed comprehensive audit checklists based on ISO 27001 standard to ensure adherence to industry standards and regulatory requirements.
- Created and delivered a detailed presentation on ISO 27001 standard, highlighting key principles, best practices, and their application within the organization.
- Formulated a detailed checklist for Microsoft 365 benchmark, streamlining processes and ensuring compliance with industry benchmarks for cloud-based services.
- Prepared a comprehensive solution document for SEBI cloud framework system audit, outlining audit methodologies, risk assessments, and recommended improvements.

EDUCATION

Master of Science in Computer Application

Vishwakarma College Of Arts,
Commerce
and Science | 2024

Bachelor of Science and Bachelor of Education (Integrated)

Savitribai Phule Pune University
Sep 2018 - June 2022

Intern

The Next Consultants

June 23 - August 23

- Implemented ISO 27001 Controls.
- Collaborated with a team to design and implement ISO 27001 controls in a simulated network environment.
- Conducted risk assessments and proposed security measures to enhance the organization's information security posture.
- Documented the implementation process, ensuring compliance with ISO 27001 standards and best practices.
