## Profile Summary

- Highly skilled and detail-oriented **Penetration Tester** with 1 years of experience in identifying vulnerabilities, securing web applications, networks, and systems, and ensuring compliance with security best practices. Expertise in conducting manual and automated penetration testing, risk assessments, vulnerability management, and providing actionable remediation strategies. Passionate about staying up-to-date with the latest hacking techniques and emerging cybersecurity threats. Seeking to apply my skills and knowledge in an innovative and challenging security-focused environment.

## Experience

- |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                |

## Certifications

- ♦ Introduction of Cyber Security  
  
By Adiroha Solutions OPC Pvt.Ltd | Bengaluru

## Skills

---

- **Penetration Testing Tools:** Kali Linux, Metasploit, Burp Suite, Nessus, Wireshark, Nmap, Netcat, OWASP ZAP, Hydra
- **Operating Systems:** Kali Linux, Windows

## Personal Details

---

Date of Birth : 07-02-1996  
Marital Status : Unmarried  
Nationality : Indian  
Gender : Female  
Place : Hubli, Karnataka
