## OBJECTIVE

To be a part of organization where the management structure recognizes and rewards loyalty, honesty, hard work & ambition of an employ by providing growth opportunities and necessary infrastructure that could contribute to the success of the company. To focus on a career oriented towards Computer Security, Computer Networks, System & Network Administration, Consultancy, Implementation and Support.

## WORK EXPERIENCE

- Cyber Security Trainer** Sep 2023- Present  
Nettech India Nerul, Maharashtra  
  
With a background in Network Security, Linux, and Web Penetration Testing, I've trained professionals to defend against cyber threats. My expertise in Ethical Hacking and API Testing ensures robust security measures. Proficient in AWS, I guide teams in secure cloud deployments and incident response. Through dynamic training, I instill a proactive approach to cybersecurity, empowering individuals to navigate evolving threats confidently.
- Network Engineer** Mar 2023 - Aug 2023  
Microsense Networks private Limited Bandra, Maharashtra
  - In my role, I Configure network hardware such as routers, switches, and access points.
  - Monitor network performance and resolve connectivity issues.
  - Identify and fix hardware/software problems affecting the network.
  - Ensure network security by configuring encryption and access control policies.
  - Maintain network diagrams and documentation for troubleshooting.

## SKILL SETS

- ❖ **CEH** :- Proficient in ethical hacking, vulnerability assessment, and penetration testing.
- ❖ **LINUX** :- Proficient in Linux systems, including Kali Linux, Parrot OS, and Ubuntu, with hands-on experience.
- ❖ **VAPT** :- Skilled in Vulnerability Assessment and Penetration Testing (VAPT), with expertise in web application, Android, network security testing and Active Directory PT .
- ❖ **API PT** :- Experienced in API penetration testing with proficiency in using Postman for vulnerability assessment and security analysis.
- ❖ **AWS** :- knowledge of AWS services, including cloud computing, storage, and security configurations
- ❖ **NETWORKING** :- Strong foundation in networking concepts, including TCP/IP, OSI model, packet flow, routing protocols, NAT, ACL, VLAN etc. and hands-on experience with tools like Cisco Packet Tracer, Wireshark, and tcpdump.

## CERTIFICATIONS

- **Certified Ethical Hacker practical (CEHv13) by EC- Council**
- **Ethical Hacking Essential by EC-Council**
- **Practical Ethical Hacking Certified from TCM SECURITY**
- **Practical API Hacking Certified from TCM SECURITY**
- **Practical Bug Bounty Certified from TCM SECURITY**
- **IoT and Hardware Hacking Certified from TCM SECURITY**
- **Mobile Application Penetration Testing Certified from TCM SECURITY**
- **Malware Analysis & Triage Certified from TCM SECURITY**
- **Rajasthan State Certificate in Information Technology (RS-CIT)**
- **ISEA (Information Security Education and Awareness) Certified in Email Security**
- **ISEA (Information Security Education and Awareness) Certified in Password Security**
- **ISEA (Information Security Education and Awareness) Certified in Whatsapp Security**

## EXPERTISE IN TOOLS

- **NESSUS**
- **Nmap**
- **Burp Suite**
- **Nikto**
- **Metasploit**
- **Postman**
- **SQLMap etc.**

## EDUCATION

- ❖ Bachelor of Arts from Kasturi Devi Collage, Chaksu, Jaipur, Raj.
- ❖ 12<sup>th</sup> from Rajasthan Board
- ❖ 10<sup>th</sup> from Rajasthan Board
