OBJECTIVE

Aspiring cybersecurity professional with a strong foundation in cybersecurity and an AWS Cloud Practitioner certification. Passionate about protecting systems and data with strong security measures. Seeking an opportunity to apply my skills and grow as a cybersecurity engineer in a dynamic and challenging environment.

TECHNICAL SKILLS

- Cyber Attacks
- OWASP Top 10
- Computer Networks
- SIEM
- Splunk
- Linux Fundamentals
- Python
- SQL
- Cloud Computing
- Amazon Web Services

SOFT SKILLS

- Communication Skills
- Problem-Solving
- Collaboration and Teamwork
- Adaptability

EDUCATION

- **C. V. Raman Global University**
  Bachelor of Technology in Computer Science and Engineering
  Oct 2021 – April 2025

- **Prabhujee English Medium School**
  CBSE Board | Class 12th
  2021

- **Santanu English Medium School**
  CBSE Board | Class 10th
  2019

EXPERIENCE

Cyber Security Intern| Eduzest Software PVT LTD   **May 2024 – June 2024**

- Contributed to log ingestion, analysis, and threat detection using Splunk SIEM, enhancing security monitoring and incident response.
- Developed custom SPL queries, dashboards, and alerts to identify suspicious activities and security incidents.
- Gained hands-on experience in SIEM operations, threat hunting, and incident response following cybersecurity best practices.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner**
- **CCNA: Introduction to Networks**
- **IBM: Introduction to Cybersecurity Tools & Cyber Attacks**

PROJECTS

Log Analysis & Threat Detection with Splunk

- Configured Splunk Enterprise 9.4.0 to ingest and analyze logs from Windows, Linux systems, and firewalls for security monitoring.
- Developed SPL (Search Processing Language) queries to detect anomalies and generate real-time security alerts.
- Designed and implemented interactive dashboards and reports to track security trends, identify threats, and enhance incident response.
