Professional Summary

Enthusiastic and detail-oriented cybersecurity beginner with a strong foundation in network security, ethical hacking, and system protection. Hands-on experience using tools like Wireshark, Nmap, Metasploit, Burp Suite, and Splunk for network analysis and security monitoring. Certified in CEH, CSA, and CHFI, with practical knowledge of configuring firewalls, switches, and security devices. Passionate about learning and applying cybersecurity best practices to protect systems and data. Continuously developing skills to stay updated with the latest security trends and technologies.

Skills

Technical Skills:

- Security Monitoring & SOC Tools: SIEM (Splunk), Wireshark, Nmap, Metasploit, Nessus
- Incident Response & Threat Detection: Log analysis, intrusion detection
- Digital Forensics & Ethical Hacking: FTK, Mobiledit Forensic Express, Burp Suite
- Network Security & Penetration Testing: Firewalls, IDS/IPS, vulnerability assessments
- Programming & Scripting: Python, Bash scripting, HTML
- IT Application Support & Troubleshooting
- Presentation
- MS Office

Soft Skills:

- Analytical Thinking
- Problem-Solving & Troubleshooting
- Team Collaboration
- Customer Service & Support
- Effective Communication
- Adaptability & Innovation
- Documentation & Record Keeping

Education

Advanced Diploma in Cybersecurity   October 2023 – October 2024
TechByHeart – Kochi, Kerala

Bachelor's Degree in Computer Science   October 2020 – April 2023
University of Kerala – Alappuzha, Kerala

Experience

TECHNICAL SUPPORT ENGINEER   October 2024 – Present
Time Net Solution – Trivandrum, Kerala

Key Responsibilities

- Oversee IT projects from inception to completion, ensuring they meet deadlines, budgets, and quality standards.
- Manage IT infrastructure, networks, cybersecurity, and technology solutions.
- Prioritize customer satisfaction by addressing technical issues promptly and effectively.
- Diagnose and resolve technical problems with creative troubleshooting approaches.
- Communicate effectively with technical and non-technical stakeholders, including customers, internal teams, and external partners.
- Collaborate with sales teams, distributors, and OEMs to identify and develop new business opportunities.
- Maintain detailed documentation of project activities, interactions, and troubleshooting steps.
- Provided technical support to users on IT system-related issues.

CYBERSECURITY INTERN   March 2024 – October 2024
TechByHeart – Kochi, Kerala

- Analyzed security logs using SIEM tools to enhance threat detection and response capabilities.
- Assisted in forensic investigations to trace and resolve security incidents efficiently.

Certifications

EC-Council
- Certified Ethical Hacker (CEH)- (ECC6941853720)
- Certified SOC Analyst (CSA)
- Computer Hacking Forensic Investigator (CHFI)

FORTINET
- Fortinet Certified Fundamentals in Cybersecurity (FCF) (2380296332AS)

EC-Council (CodeRed)
- Digital Forensics Essentials (DFE) (310913) - EC-Council
- Network Defense Essentials (NDE) (315609) - EC-Council

Security Blue Team
- Introduction to Network Analysis
