Objective

Seeking an entry-level position as a Penetration Tester where I can utilize my technical skills in cyber security, ethical hacking, and vulnerability assessment to contribute to the security of organizational systems and gain practical experience in a dynamic team environment

Education

SAVITRIBAI PHULE UNIVERSITY

Master of Computer Applications

2022-23

Technical Skills

- **Hardware:** Skilled in hardware configuration, assembly, and troubleshooting.
- **Networking (CCNA):** Proficient in designing, implementing, and troubleshooting computer networks. Network Fundamentals, Network access, TCP/UDP, IPv4, IPv6, etc
- **Ethical Hacking:** Skilled in applying ethical hacking methodologies to test and secure computer systems.
- **Penetration Testing:** Experienced in conducting penetration tests using tools like Metasploit and Burp Suite to identify and mitigate vulnerabilities, providing detailed reports for enhanced security
- **Security Tools:** SIEM (e.g., Splunk), IDS/IPS (e.g., Snort), Firewalls, Antivirus/Malware Protection.
- **Vulnerability Assessment:** Host assessment, Network and wireless assessment, Database assessment, Application scans

Projects

- **Mitigating Cross-Site Scripting Vulnerability in [Impacted Software]:** (CVE-2022-47416): This title directly mentions the type of vulnerability (XSS) the affected software and the CVE identifier.
- **Using Burp Scan:** confirmed that there is a way to bypass the input in web applications
- **Responsible Disclosure of Remote Code Execution Vulnerability in Dolibarr** (CVE-2023-30253): This title emphasizes the responsible reporting aspect and the severity (remote code execution)
- **SQL injection vulnerability allowing login bypass**

Soft Skills

- Communication Skills
- Problem Solving Abilities
- Leadership Qualities

Certificates

- Cyber security expert
- Certified Ethical Hacker
- CCNA Training Certificate
